Keep Comfortable This Summer

With a FREE Google Nest Thermostat E!*

The Smart Way to Save Money
This summer, you can be one of 100,000 Michiganders to get a Google Nest Thermostat E – on us!

With your free thermostat, you'll save up to 15% on your energy bill.**
And, when you sign up for our Peak Power Savers® Smart Thermostat Program, your savings will grow. Learn more at ConsumersEnergy.com/smartthermostat.

Take Control of Your Energy Bill
In addition to the savings from simply installing a smart thermostat, if you rely on us for your electricity service, you must also enroll to take advantage of our Peak Power Savers Smart Thermostat Program. Your new Nest thermostat will sync with the program to learn your comfort preferences. On select summer days, we'll pre-cool your home using your central air conditioner to help you use less energy when energy demand is highest. If you find you're ineligible for the Smart Thermostat Program, you'll receive a free Consumers Energy Care Package.*
