Studies have shown that Weatherizing your home can result in an average of 15% to 40% reduction of fuel usage which in turn will lower your utility bills.

Program services are **free of charge** to qualified homeowners and renters, providing both short and long-term energy savings, as well as increased comfort in the weatherized homes.

The Weatherization Assistance Program (WAP) makes energy-related improvements on the homes of low-income households.

The WAP works on all types of housing, including single-family homes, multi-family units, and mobile homes.

Services that may be offered:

- Home Energy Audit
- Weather-stripping, caulking, general air sealing
- Door repair or replacement
- Window Assessment
- Attic, foundation, wall, or sill box insulation
- Blower door testing and diagnostics
- Combustion appliance zone assessments
- Programmable thermostat installation
- Carbon Monoxide Detector installation
- Furnace tune-up or replacement
- Water Heater assessment or replacement
- Refrigerator assessment and possible replacement
- Quality Control Inspection after the completion of the project
