

“The Cottage”

It's a fun, friendly, safe place for a loved one to take a break from his or her care-partner.

Guests can enjoy activities, good food, companionship, or just rest if they wish!

The cottage provides a haven for guests that may need a little extra care, but have the desire to continue living at home.

Services**

The Cottage

At The Cottage, we take pleasure in learning about our guests and tailor our schedule based on their abilities and desires. We also offer activities specially designed for guests living with Alzheimer's or

dementia.

From The Ogemaw Commission on Aging

At The Cottage we understand that a break from your loved ones, or just a trip out of the house, can mean as much to your health as a trip to the doctor's office.

We offer a variety of things to do during the day in hopes of having something for everyone, and we're always interested in suggestions from the guests who visit us. We want you to feel comfortable here, and promise to do our best to be good company.

Activities are offered such as: board games, puzzles, movies, arts and crafts, tea time or even group activities such as bingo or holiday parties!

Much of our time is spent in a group, but we also enjoy getting to know you one-on-one. We hope you'll give us the chance to do so!
