

As part of the Northeast Michigan Community Service Agency Inc., the School Success Partnership Program has been in operation for 25 years. The community-based program serves school-aged children and youth from Pre-Kindergarten through 12th grade who are at-risk for academic failure. The School Success Program collaborates with family members, teachers and administrators to address student needs and barriers to academic success. With a combination of state and internal funds, School Success has increased its service area, from 8 to 11 Northeast Michigan counties during the 2015-2016 Academic Year. This dashboard highlights results of that expansion and the continued support of current operating programs.
