The report contains information regarding monitoring, health, dental & disabilities, child outcomes, parent involvement, program expenses, proposed budget and enrollment numbers.

Spring Planning Meetings Update
Tricia stated that the Leadership Team met with all areas and will use the information that was gathered to develop a plan for the coming year. Renee Miller was able to attend the meeting in her area and said that she really enjoyed it and found it very informative.

Duration Update
Tricia informed members that our request for Duration funding was approved. Staff are securing new sites and posting open positions.

Program Planning
In order to guide future planning, Tricia distributed a sheet a paper with the question, “What do you wish that you knew about your child’s classroom?” Members were asked to take the sheet home and write down any questions they may have regarding their child’s classroom and bring the sheets with them to next month’s meeting for discussion.

Head Start In-kind Reports/In-kind Targets
As mentioned in last month’s meeting minutes, members were asked to review the Head Start In-kind Targets for the period of September 2017 thru August 2018 school year. Included in the report by Area, is total In-kind generated for program years of 2015-2016, 2016-2017 and 2017-2018.

In reviewing the reports it is clear that In-kind numbers are declining. Tricia asked members what they felt the reason/s for the decline might be. The following are several responses from members:

- In-kind takes a back seat to parent’s time and daily stressors
- Parents do not have the time especially if they have more than one child
- Teachers may feel that parents might not have supplies at home for certain activities

Misty Johnson, Mid Michigan representative, said that having the actual dollar amount of what their time is worth doing the activities with their child really got her attention. She stated that on the bottom of the In-kind forms that are sent home, there is an “Office Use Only” section where staff calculate the number of minutes spent on the activity x the actual dollar amount of what their time is worth i.e. _____ minutes x $16.62 = $ ____. When she saw that her time was worth $16.62 per hour, it encouraged her to continue to do the at home activities with her child!
